

## Explosion-proof cable gland M32x1,5 LT-KBAU3MBNS

Cable glands for armored cable

### Description

LT-KBA(U) series cable glands for clamping and sealing the entry points of armored cables with rubber and plastic insulation in fixed, mobile, or portable electrical equipment.

### Design

Cable gland material: brass (the body can be nickel-plated) or stainless steel, Standard threads: NPT (N) and ISO metric (M) with 1.5 mm pitch. Pipe (G), conical (K), and conical pipe (R) thread are available upon request.

## Dimensional characteristics

Weight	0.5 kg
--------	--------

## Technical features

1	Article no.	4105000010
2	Marking for gas	-
3	Dust marking	-
4	Mine gas coal dust marking	-
5	Electrical shock protection	I
6	Ambient temperature	-60 to+130 C
7	Climate application	-
8	Ingress protection (IP)	IP66/IP68
9	Mechanical shock protection	IK08/7 J
10	Electromagnetic compatibility (EMC)	Yes
11	Energy efficiency class	-
12	Housing color	Unpainted
13	Warranty	18 months
