

LEADER UM 250 - 400

Floodlights

Description

Floodlights for architectural lighting and sports venues lighting with a high IP rating. Discharge lamps are used as the light source.

Installation

Indoor or outdoor installation.

Design

Powder-painted die-cast aluminum housing and frame. The control gear is mounted on a metal plate inside the housing.

Optical part

Anodized aluminum reflector. Clear tempered protective glass.

Usage

Industrial enterprises

Mall

Outdoor playgrounds

Private interiors

Warehouse facilities
